

EDWARD series

Recycling is better

Edward

the only one with Hepa
dust extractors!

Picture: Edward 300

We are pleased to introduce the new range of cardboard shredder series EDWARD: a professional line of industrial, ecological, economic and compact shredders.

Enough useless waste and improvised packaging! EDWARD frees space in the warehouse by transforming the cartons into cardboard elastic mesh perfect for packing.

Why buy the Edward cardboard shredder?

- Designed for heavy use with 8 mm. blades, roller bearings, reinforced shaft and reinforced belt!
- Transforms your used cartons in precious packaging material, without wasting time and effort!
- You can protect your products inside the boxes, without buying polystyrene and bubble wrap.
- Due to its flexibility the cardboard mesh produced is easily adaptable, to any type of packaging with remarkable impact resistance.
- Frees warehouse space needed to store packaging material.
- It cuts the costs of waste disposal and packaging.
- It frees space, ecological and economical.

3 cutting styles!

- **Elastic net**
- **Strips**
- **Chips**

Elastic Net

The Edward blades are reinforced and resist the passage of small pieces of metal. Can use cartons with a width exceeding 1 meter because the machine performs automatic trimming; simply by repeating the procedure. With Edward you get high quality packaging material.

Technical Advantages

- Simple and easy to use by means of an on/off switch.
- Sturdy structure and stainless steel crankcase suitable for intensive use in shipping department.
- All models are transportable on wheels.
- Conforms to all norms of national and international safety regulations.
- All models are equipped with a dust suction connection.
- Super-sized engine for optimum reliability.

ATTENTION:
FOR EDWARD 300 AND 400 NET AND STRIPS VERSION: LEGS AND WHEELS KIT OPTIONAL
FOR EDWARD 500 AND 700: LEGS KIT INCLUDED. WHEELS KIT OPTIONAL
FOR EDWARD 300 AND 400 CHIPS VERSION: LEGS AND WHEELS KIT INCLUDED.

Why our cardboard shredders are better

- Long lasting steel blades.
- Special gears for hard working cycles.
- Monolithic body structure.
- 12m/minute high cutting speed.
- Bearings for high radial loads.
- Heavy overall machine weight for professional applications.
- Wheels equipped for easy moving.
- Vacuum ready.
- Blades checking window.
- Scratch proof powder coating.
- Anti wear treated.
- Coriander version available , chop the cardboard into small sized corianders.
- Simple and practical to use with two-position switch: on / off.
- Heavy duty body and stainless steel carter suitable for intensive use in freight forwarding departments.
- Complies with all relevant national and international safety standards.
- Over-sized engine for optimum reliability.
